CALUMNY REBUKED.

Meble Vindication of Comptroller Connolly by Mayor Hall-His Accounts Secutinized and Pronounced Correct-Other Branches of the City Govermment Defended.

At a meeting in Cooper Institute on Saturday rening, held under the auspices of the Central other topics, the charges of defalcation made against Comptroller Connelly. In order to vindicate hun-Connolly invited a number of well known citizens to examine the accounts of hisomee. These gentlemen did so, and made the following

venue bonds of 1850 of the city are pay-

noner.

gverri amounts as stated above are as shown by the of the department at the close of business October 5, MOSES TAYLOR, E. D. BROWR, J. J. ASTOR. GEO. K. SISTARE, EDWARD SCHILL, MARSHALL O. BOBERTS.

Mayor Hall proceeded:-

Whon i did the Comptroller select? I believe only me of these gentlemen is of our political party. Mr. debert s was a prominent candidate of the republicans for Governor. And in the name of my party, and in the name of my party, and in the name of Governor hofiman, I must here shark him for not running; for oil i what a distance there is between such a man and General Woodford. Mr. Brown is the President of the Mechanics' and trade rs' fank, one of the oldest institutions in New York. Mr. Edward Schell, who may be called the bombshell of this occasion, at it is an a bombshell of this occasion, at it is not these institutions deal largely in the son ribes of the city. Mr. Sistare is the greatest city town and village banker in this part of the world. But I need not clatorate. Never was refused in stronger. In the Comptroller's bepartment is h is aid, the Chamberlain, whom so many abuse. Why, the payment of the interest on deposits before one gwill equal a million of dollars. The Chamberlain of of his lees pays the whole clerical expenses of his office, which are large. And he entirely sweet away the oid abuse of former chamberlains, we to kept large bank accounts, on which they were paid interest which they pocketed; and they would so methics actually borrow modey at low mice and geat mil interest on it, from keeping heavy these of deposits in the city banks.

That abuse has new secret accay and his fees and Whom I did the Comptroller select? I believe only

get rull interest on it, from keeping heavy lines of deposits in the city banks.

That abuse has been steept away and his fees and expenses are entirely regulated by the Legislature. You are asked to change the Police Bepartment by your election for Mayor. Who is at the head of it? The involval Action is no longer there as distator. The hydronous K-rucky is no longer there as distator. The quantor. We have abolished that mer dess espionage of cit tean, which hitherto existed. Superintendent louidan lies in his grave, the victim of his fidelity to duty. His successor is a graduate of our pet college, that spraing from the Free Academy, and, like Jourdan, spraing from the Franks. He is a min who knows now to grasp correctly the hear of his duty. The commissioners of Police are those reappointed by the Mayor, who had been previously elected by both parties in the Legislature. The head of the Commissioners is that eminent jurist, Judge Bosworta. And you are asked to change thus department, pernans in the interest of men who are—but I grow necessarily personal if 190 on. The Fire Department continues uniter the present system exactly as the Mayor and Commissioners found it. Even the Tribina, that common soold of the measpaper word, has approved it. No one has doubted its present efficiency. And would you change the fieldin Board? The past second was the holtest ever known in this vicinity, and yet the city was healthy. That alone is the summing up and the verduce. Better than that nowever, under the present leath to board the poorer class of citizens has escaped the espionage and used oppression of George failes. Jr. Look at the Department of Parks as now constitued, selected among is agents. A few deadleads and abuses of the old system have be mean or on and all the skined labor, the engineers, the lord among is agents. A few deadleads and abuses of the old system have be mean or an and all the skined labor, the engineers, the lord amones academent what have been refamed by the progresses any by day. Look at Ewilli posits in the city banks.
That abuse has been sicept areay and his fees and The same may be said of Tompkins square, all other squares. A convenient and beautiful. Fay is being extended across Washington be ground around the fountain, and when complying after new and fine thoroughteres. The at Commissioners have given innset to the in act the parks. Will the people not conthe popular verdict next Tuesday? This Laguew, the Kniekerbocker merchant, and n Wood, of the worth-renowned Arm of Den-wood & Co., and Wilson G. Hunt, the Ros-lew Fork, and General McClettan, the Chap Sent sys. cm next Tuesday you will defect one of the most car specience and rainable commercial plans ever the table of. General McCellan's plan is to have the entire narbor present a stone wall set at the continuence of the wall set at the continuence of the wall set at the continuence of the world. The bonds to pay for these improvements are be paid on posterity. There will be no increase of the world in the bonds to pay for these improvements are be paid on youtering. There will be no increase of the acts without increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce. We so is the increasing a lax on commerce in the accommissing gentleman, the ripe scholar, the Processed layer and the magnetic oration of 60 man, is a favortic which all classes, and nowhere men to so then in the social world which many reput deems affect. Is there any not of energy, activity, enterprise or industry in the negarinest of the department. It is trioute enough for me to say that no one has attacked insofficial experience and ability. The shanders are made as him as an individual. His tria act on going time office was to solice as Chief Engineer of the Craron aque that Department as man whom he end not know personally or positically, and a man whose pointes it, as Mayor, do not myself know, he is the brother of Charles and William Tracy, the emment anyers of this city. His name is Edward H. Tracy, under the swell known In this carrier days. He knows the whole alphabet of Earlier days. He knows the whole alphabet of Earlier days.

creasing expenses? But they say that some of this money is stolen, How much? Where? If this be so, why cannot some one give tacts instead of instructions? I will lay down my platterm in respect to future taxation. I think we now knew the limits of city increase. I am in favor of the Legislature fixing the rate of taxation, and on the present valuation. That is to say, I select the figure which the wisdom of the Legislature may select. Then the city officials will know the income. Then city officials will know the income. Then city officials will know the income. Then city officials will have to graduate the rexpenses which that limit, just as private offizens know how much they have to pay for coal, real, wages, &c. This will save us from the injury which other cities stader in facilities and a fact dozen other cities stader in facilities and a fact dozen other cities stader in their violent fluctuations of property and taxation. We are taxed less than peace to boothy, Foughkeepsic and a fact dozen other cities which, if time normited, I could mention. As the exponent of this system, its Mayor now in office comes before you next Tuneday for the verdict. It is with me a quest on, I think, mere iyot majorities. The greater unanimity on a Scotch verdict the greater its value, Here let me return my thanks to my fellow candidates on he tickel for their magnetismons card. The card of Mr. Brennan and his associates means simply this:—We, the subscribers, don't want one vote that is not given to dakey Had; and we don't want one vote from any man who yotes for Ledwith for Mayor. And though he is somewhere here in this room to-night, and I must studied for years past. Se is a New york Kinckerbooker boy, he fears do his face, I would like to say a few words about your Mayor, whom I have studied for years past. Se is a New york Kinckerbooker boy, he fears do his letters on the corner of Broadway and Bleecker struct. He graduated at your linversity, of walled he has become a counsellor, He cardices to the class that stread creasing expenses? But they say that some of this money is stolen, How much? Where? Men of positive convections, however, must be par-tisan. But, accertifices, he is the exponent of the present manietpal system. He throws this system upon your approval and that of his fellow citzens, Next Tuesday let it not be a cold approval, but a heartr and emplatic one. And if he shall abuse the confidence let him deserve and receive the repre-hension of all present and future New Yorkers.

CITY POLITICS.

Estimated Democratic Majorities. Speculation continues rife, not in regard to the result of the election, which, in the opinion of all whose judgments are not warped by party prejudicas, is not considered doubtful, but in regard to the probable majorities. Leading democrats are confident that John T. Hoffman will leave the city with 60,000 majority, and some place it as high as 70,000. It is conceded that Mayor Hail's majority will not be quite so large—probably 40,000. The sporting men seem to be about equally divided in opinion as to whether Charley Loew or Mat Brennan win run ascad of the ticket.

Grand Ratification Meeting in the Seventeenth Assembly District.

On Saturday evening one of the largest and most enthusiastic meetings ever held in any Assembly district in this city convened at National Hall, Forty-fourth street, between Eighth and Ninth avenues, for the purpose of ratifying the nomination of Edmond Connoily for Assembly for the Seven-teenth district. The immense crowd was addressed beenth district. The immense crowt was naderssed by several speakers, among whom were Fernando Wood, Andrew J. Rogers, Richard O'Gorman and a host of others. The carit of the speeches was entirely enlogistic of the lavorits candidate—his worth as a cutizen, his bravery in the field of battle in defence of the Union, his long incarceration in Libby Prison with General Corcoran, &c.

Ledwith Losing Strength.

The Ward Committee of the Twenty-second Ward New Tammany Hall Democratic Reform Asseciation held a meeting last night at No. 592 Ninth avenue, Adam Roediger, Chairman, at which the following resolution was passed:—

Resolved, That the members belonging to said association endorse the regular Tammany that comporate tieset, and that the challenas be authorized to furnish tiesets for the numbers of each association.

Resolved. That the above association, having for its object the return of our city government, have entored it. A. Les with for the above purpose of return and under the rate of democracy but now, moting that he is supporting the republican principles, we as democrate, can not support him, and would therefore recommend to vote the straight democrate track, in over not to lose the democratic principles engrated in our hearts.

and Still Another. NEW YORK, Nov. 6, 1870.

TO THE EDITOR OF THE HERALD:-In your issue of to-day I see my name mentioned as candidate for Assembly, Fifteenth district. Not mselves at the expense of the honess democratic sees of this city, I sent in my resignation of masses of this city, I sent in my resignation of candidacy upon the 30th day of October. And in this connection allow me to state to my fellow citizens that no "inducement" had been offered me, directly or indirectly, by any party for the course I have accopted—all reports to the confirmy notwinstanding. I wish to see the democratic party trainapa in this State, believing it to be the only belwark that can resist encreachment upon the people's rights, and would respectfully argonomy friends in necessity of frowing down any attempt, by appears to religious prejudice or otherwise, whereby the rights of the numbers critizen may be imparted. The only issue in my namble opinion to be decided upon on Tuesday next is "Shair the State of New York be piaced in the hands of the radical party, whose antecedents have always been marrow minuted, bigotal and undemocratic." Yours for fieldman and victory.

JOHN KAPFERTY.

HEADQUARTERS LABOR ROPORM } FELLOW WORKINGMEN-We have learned that a rumor was started vesterday to the effect that we have withdrawn from the field our nominees. Such ramor is faise. Our State ticket is:- James S. Graham for Governor, Conrad Kuhn for Licetenant ham for Governor, Conrad Kuhn for Licetenant Governor, Peter J. Meaney for Comptroller, John H. Bond for Canal Commissioner (long term), Charles C. Barrett (saort term), Henry A. Hawes for Inspector of State Prisons, Our local nominations are:—James O'Reitly Bennet for congress, Second district; Erastus D. Websier, Third district; Francis B. Stryker for Register, James Dury for County Clerk, Philip Clare for Assembly, Third district; Wm. W. Mosely, Fourth district, and Georgo Leimandt, Eighta district.

The committee Considers the above card a necessity, less the twenty-two thousand workingmen of Kings county should be deceived into voting an opposition taket. Workingmen, our men are in the field preparing to battle for your rights on election day. They are now in the field and will continue so until santowa on election day.

The state of the color of the color of the common inwers of this city. His name is Edward H. Tracy, and he is well known in this country as connected with the croton Aqueenet in its carrier days. He knows the whole alphalet of its arrangements. The citizens have already perceived how intelligent he is, atthough silent and mores in the discharge of his daties. Mr. Tweed's segacity and forcama, in connection with the quiet chorts of the Chief lengineer, has kept this citiz's reservoirs abendantly suponed with water during a season of unprecedented drought, when even country wells were dread, and streams that have never falled shrunk to stemy bed. An administration paper has within ten days charged upon the head of the Department of Public Works the passang of a law by which water never were fassened upon dwelling houses. There is no such law. The abject of the law is to put water meters upon business places, so that they cannot trade in water to the injury of the inhabitants who wish to use it merely for nonselved purposes. The election next fuesting with the such of Education. Since its availation thirty of for inhabitants who wish to use it merely for nonselved purposes. The election next fuesting with the section of Education. Since its availation thirty or forty thousand children rave been faken from the streets and added to the schools. My official statisfies show that eleven thousand more children were in the schools on the let of september than were in the schools on the let of september than were in the schools on the let of september than were in the schools on the let of september than were in the many called the day heart of the poor man can committee the fact of the fact of the poor man can committee the fact of the fact of the certificate of Meart, the day heart of the poor man can committee the fact of the fact of the certificate of Meart, the day heart of the certificate of Meart, the day from the State authorities. Thus more fact of the fact of the certificate of Meart, the day of the called ton t until sandown on election of On behalf of the committee

B. S. WELCH, Chairman. DANIEL RUSSELAND, Secretary.

That Rapid Railroad to Harlem.

To the Editor of the distance— In your issue of the 5th most I noticed, under the head of "Political," an advertisement headed "Twelfth and Nineteenth Ward Citizens' Associa tion," endorsing John Foley for Assembly in the Twenty-first district, and signed by me as secretary. I beg leave to say that I was see retary of the aforesaid association, which was formed for the improvement of the means of travel between the improvement of the means of travel between the upper and lower parts of the city, and not for any pointed purpose. The day after Mr. Foley was nominated 1 cent to the Association my resignation his secretary, and have not since acted with them. As I am a republican, and as the Republican Convention in that district have nominated Joseph S. Dewey for Assembly 1 shall certainly support Mr. Dewey, and have so told Mr. 300c.

Forey.

I write this to let my friends know that I do not support John Forey, out shall no all I can to elect Joseph S. Dewey.

ASHER EARNETT.

May R. 1870. support John Forey, Joseph S. Dewey. Nov. 6, 1870.

CAUCHT ON THE FLY.

Over's year ago, in Newark, N. J., one night three or four young ruthans waylaid, robbed and outraged a poor old woman named Margaret Ryan. Several of the gang were tried, found guilty and sentenced to imprisenment. One of the party, James Sands to imprisemment. One of the party, James Sanda by mane, wille being escorted to the jail, slipped his handconfs and ran. The officer in charge fired twice at the ingitive, but missed, and Sands made good ais escape. Yesterday he was found in the streets creating a disturbance, when officer Rae dropped on him. He tried to get away, but the officer succeeded in lodging him in jail. He gave the name of Yanderhoof, but in the evening was identified as Sands. He will now get his just desOUR CRUISERS ON THE FISHING BAN'AS.

Laws-Troubles of Our Fishermer .- How the Bineneses Look Upon the Mr atter-Official Hospitalities to American Re presentatives-General Butler's Chance.

The ship Guard, six guns, 'commander E. P. Lull, which arrived on Thursday, last from the Fishing Banks, was towed to tar, Navy Yard on Saturday to rest for the coming Dr rien surveying expedition. It is not probable that 'the ship will go out of commission until after the completion of the surveys early next spring. The Guard needs considerable repairs, and ought to be thoroughly overhauled before she is again sent to sea. The exigencies of the service will probably prevent all this, and the ship must hang together until another season.

The recent cruise of the Guard has been quite in tetesting. The special object of her mission to the Pishing Banks was to inform American fishermen of their rights and responsibilities under the laws of the United States and of the Dominion of Canada, and to see that the armed police cruisers of Canad and of Great Britain old not oppress and worry our hardy fishermen while they were rightfully pursaing their peaceful vocation near Canadian waters. The Guard was one of a small squadron of three vessels, the others being the Frolle and the Nipsic, despatched by our government on this delicate mis

The Guard sailed from New York August 12, and proceeded to Charlotterown, Prince Edward Island, where she safely arrived after a somewhat prolonged passage of fourteen days. There she found a number of American fishermen, and sent a boat to cach to deliver to the captains of the craft copies of a circular, issued from the United States Traisury Department by Mr. Secretary Boutwell, relating to

The circular, first reciting the fact that the authorities of the Dominion of Canada have terminated the system of granting fishing licenses to for-eign ve sets, under which they had heretofore been permitted to fish-within the maritime jurisdiction of the Dominion—that is to say, within three marine miles of the shores thereof—and that all fishermen of the United States are prohibited from the use of such mehore fisheries, except so far as stipulated in the first article of the treaty of October 29, 1813, between the United States and Great Britain, in virtue of which the fishermen of the United States have, in common with Britain subjects, the liberty to take fish in a carefully deduced district, the limits of which it is not here becessary to detail. The treaty also gives the United States fishermen the right to dry and care fish in any of the ansettled buys, harbors and creeks on the southern part of the coast of Nawfoundman and of the coast of Labrador, unless the same or any bornon thereof be settled, in which case it is not lawfur for the said fi hermen to dry or cure fish at such portion so settled without previous agreement for such purpose with the inhabitants, proprietors, or possessors of the ground; and the fisher nea are also permitted to enter any of the bays or nariors for the purpose of shelter and of relaining damages therein, of purchasing wood and of ortaining water, and for no other purpose whatever, subject to such restrictions as may be necessary to prevent their taking, drying, or curing fish therein, or in any other manner whatever abusing the privileges reserved to them as above expressed. The Secretary cantions fishermen of the United States that they are bound to respect the British laws and regulations for the regulation and preservation of the fisheries to the same extent to which they are bound to respect the Gritish laws and regulations for the regulation and preservation of the fisheries to the same extent to which they are bound to respect the Canadian lishermen. tween the United States and Great Britain, in virtue

to which they are applicable to British or canadian lishermen.

The Canadian law is then quoted by which noncommissioned elicers of her Majesty's navy, fishing officer, or stipendary magistrate on board of vessels of her Majesty's navy or on any vessel belonging to or in the service of the government of Canada, and employed in the service of protecting the fisheries, or any custom officer, secral, magistrate or other person duly commissioned, may go on board any ship, vessel or boat within any harbor in Canada hovering (in British waters) within three marine miles of any of the coasts, bays, creeks or harbors of Canada, and stay on board so long as she may remain within such place and distance; and the law gives these officers if right to bring these vessels into port, to search their cargoes and to examine the master on oath touching the cargo and voyage. The penalty for lase answering is 400. Anoner section of the law declares the vessel, tackle, rigging, apparel, furnities of the present of the law declares the vessel, tackle, rigging, apparel, furnities of the coasts of the faise answering is \$400. Another section of the law declares the vessel, tackle, righting, appared, furniture, stores and cargo thereof fortested if it is caught fishing in the restricted territory without a heense, any of the officers above meantoned may make the seizare. Any person opposing any officer mentioned above in the execution of his duty under the act shall fortest \$500 and shall be guilty of a missiemeanor, punishable by two years' tuprisonment. It will be observed that the warning connerty given is not required under the amended act, our that yessels treaspasing are liable to accuracy without

that vessels trespassing are hable to seizure without such wa unit.

On the 5th of January, 1870, the Governor General on the 5th of January, 1870, the Governor General On the 8th of January, 1870, the Governor General of the bommion of canada, in Council, ordered that suitable sating vessels be enartered and equipped for the service of protecting the Canadan inshore insheries against lifegal encroschments by foreigners, these vessels to be connected with the police force of Canada, and to form a marine branch of the same. A change in the boundaries of tween Canada and Labrador is now alluded to, but the Secretary states that it does not interfere with the rights of American fishermen, as defined by the treaty of 1818, it being a municipal change of boundary only. Five Canadian gunnouts have been seen by our cruisers, as well as a large number of Enguish menotwar, on the ground. The Canadian force is not a formidable one, except as against unarmed issactnen. They seized several American schooners and quite a number of Kanuak lishermen for violation of men. They seized several American schoolers and quite a number of Kanuck fisher neu for violation of the law. General Butler has taken up arms in behalf of his Marbi-head constituents in quod; but no one has raised his voice in favor of the kanucks, who are just now doing an immense deal of very safty swearing over what they term the "cursed outrag s" committed by the Dominion authorities. The law works as badly for the Euconoses as it does for our fishermen, as they are competed now, it they ship their "catches" to the best market, which is the United States, to pay daily in gold, and thus compete with the 4 ankee skippers, whose cargoes are curred

works as badly for the Blachoses as it does for our fishermen, as they are compelled now, it they ship their "caitches" to the best harket, which is the timited States, to pay day in gold, and thus compele with the Yankes skippers, whose cargoes are emered tree. They are not allowed to transier their cargoes to American craft, and it is barchally to prevent this existion of the law that so noany English cruisers are about protecting the casions. Naturally all the fishermen are for american, and a very powering and growing party exists in Nova Scotia and Prince Edward is and tavorable to that scheme.

The Guard visited Cape Broton, Picton and smaller ports and dishing grounds on the southern part of the Guir of St. Lawrence, distributing circulars, and keeping a general lookout over the drift of atairs. The American fishermen were rather offer in the expression of their dissatisation with the hostic laws of the Dominion, but were shrewd enough not to openly dely the regulations. When they got a chance to obtain a fine catch within the dreaded three miles of shore, without being detected, hey never allowed it to slip by without prost. Some came to errie in coassquence, but then there was niwnys a question as to the exact position of the vessel when captured, which is to be settled. It is not so much against thus feature of the law that our fishermen complain as against the unfriendly legislation that forbids them, are smally underlying and caring their fish on Canadian shores. This prohibition compels the vessels to return with their cargoes to the United States in order to cure them, and consumes much valuable time, at a juncture perhaps when it can be it afforded. The only recompense to be found for these hostic acts of the Canadian government is in the fact that foreign fishermen must pay duty on their cargoes before they can compete with American catches in the United States, which is something; but then a community of interests of association and tastes bring the Yankees and Binenoes fishermen together, and

A MAN KILLED ON THE ERIE TRACK.

Yesterday afternoon a man named John O'Nett had his foot caught in a frog on the Erie Raitroad near the Long Dock, and was run over by a train and killed aimost instantly. Deceased resided in South Seventh street, Jersey City. Coroner Burns will hold to inquest.

DEADLY ASSAULT IN HOBOKEN.

A man named Warner was arrested and held for examination in Hoboken last evening for making a murderous assault on a saloon keeper named Erschen, at the corner of First and Garden streets, Hoboken. The complainant was terribly cut about the head, and had to be removed for medical treat-

WASHINGTON.

Rumored Resignation of Chief Justice Chase-Judge Cartter, of Washington, to Saccoed Him-Commissioner Fisher, of the Patent Bureau, Still in Office-The Alabama Claims in Statu Quo.

WASHINGTON, NOV. 6, 1870. Proposed Changes in the Supreme Court Bench-Chief Justice Chase to Resign.

There is a strange rumor here that Unief Justice Chase has determined to resign, and that Judge Cartter, of this district, will be offered the position. The reason is not certain for the resignation of Chief Justice Chase, but it is believed to be his continued iii health. It is elso said that senator Drake, of Missouri, will be appointed Chief Justice of the Cour. of Claims, vice Judge Casey.

The Commissioner of Patents Not to Resign. Amon; other rumors last week was one to the effect that Judge Fisher would soon retire from the office of Commissioner of Patents; but, on inquiry, it has been ascertained that the report is untrue and that Judge Fisher has been requested to remain. There is no doubt, however, that outside efforts are now being made to produce several changes in the Interior Department without consultation with those to whom such matters properly belong.

The Present Status of the Alabama Claims. No action has recently been taxen by our government in relation to the seitlement of the Alabama claims, nor has the British government made any new advancement in that direction. So far as is known our government adheres to its fermer posttion as expressed by Secretary Fish, and the British government is equally decided in its own course, tion for the adjudication of the claims.

Condition of the Southern National Banks. The abstract of the reports made to the Comptral-ler of the Currency shows the condition of the national banks in Georgia, eight in number, on the 8th of October. They have resources to the amount of \$5,775,925, including legal tender notes, \$542,218, and \$55,995 in specie. The individual deposits \$1,681,595. The capital stock is \$1,815,690. The national banks of West Virginia (lourteen) have resources to the amount of \$6,005,506, with \$20,155 of specie; i dividual deposits, \$2,069,-135; national bank notes outstanding, \$1,847,952; capital stock, \$2,116,400. The national banks of Virginia (seventeen) have resources amounting to \$9,522,464; specie, \$87,927; national bank notes outstanding, \$2,123,325; incividual deposits, \$3,593,423; capital stock, \$2,375,600. The national banks of North Carolina (stx)-Resources, \$3,518,550; specie, \$22,752; national bank notes outstanding, \$528,655; individual deposits, \$1.502.365; capital stock, \$850 -000. The national banks of South Carolina (three!-Resources, \$2,866,139; specie, \$17,197; national bank notes outstanding, \$333,000; capital stock, \$1.081,000. The national banks of Alabama (two -Resources, \$1,074,216; specie, \$12,727; national bank notes outstanding, \$265,918; capital stock, \$400,000. The resources of the national banks of New Orleans are \$4,256,969; specie, \$132,810; the capital stock is \$1,300,000; national bank notes outstanding,

\$1,043,331. The Franking Privilege. The Postmaster General will repeat in his annual report his recommendation for the abolition of the franking privilege, and present the result of the examination now being made concerning the amount of free matter which passed through the mails during a given period. A number of clerks are now engaged in collecting this information. Internal Revenu: Stamp Bids.

The Secretary of the Treasury may not return to Washington until the end of this week, when he will make a decision in the internal revenue scamp bias. Meanwhile the terms of the different offers are being classified, in order to a full understanding of the antire subject.

The annual report of the Chief of the Bureau of Equipment and Recruiting of the Navy Department shows that during the past fiscal year twenty-four vessels were flitted out for sea. At present work is progressing on others to the extent that the amount of money appropriated will permit. Wire rope has been adopted lately for the lighter standing rigging of all vessels requiring a new outlit, as it has been previously for the heavier rigging, the trials made with it on the upper spars proving entirely satisfactory. A set of machinery for the manufacwire rope was purchased out of the appropriation of last year, and an estimate will be submitted for the cost of putiling it into operation at the Boston Navy Yard, Anchors, chains, capies, galleys, &c., have been made during the year at the Washington Navy Yard distilling fresh water, ovens for baking fresh bread for the crews, balsas for life rafts and boat towing apparatus have been added to the navy during the past year. The vessels of the navy, by reason of changes made in the propelling apparatus and general arrangement, have used much less coal than heretofore. There has been no excess in the number of men enlisted in the navy above the number allowed by law.

Sinking of a Schooner in York River. The schooner Mary Parker, B. Petry, master, loaded with cysters, was struck by a whiriwind at the mouth of York river on Thursday and capsized lost. An effort is to be made to raise the schooner

New York Vessels Ourrestined at Gibraltae.

from the United States Consul at Gibraitar stating that the Board of Health of that port has imposed seven days' quarantine observation upon all vessels from New York bringing clean bills of health and having no ili health on board, on account of the reported prevalence of yellow fever on Governor's

ORPHAN MINORS.

Meeting for the Protection of Destitute Or-

A meeting of the Sixteenth Ward Independent Association was held on Saturday evening in relation to the bal for the protection of orphan minor and destitute and delinquent persons, which was vetoed by Governor Hoffman, a ter having passed both houses of the Legislature at the last session. Mr. Michael Harnahan occupied the chair, and the minutes of the previous meeting having been read by the Secretary, Mr. C. F. Stephens, they were ap proved. After some discussion upon the important subject at issue a preamble and resolutions were unanimously adopted to the effect that as the right of conscience was not respected in some of the public and chartered institutions of the State, and as the children of the poor and adheted were transported beyond the bounds of the State without the consent or knowledge of the parents, relatives of guardians, it was absolutely necessary to once again present the oilt to the legislature requiring our public institutions for the reception of inthos to keep a public record of the date of their reception, how and by whom placed ther-in, together with the names, residences and places of birth of the children and the names, residences, places of birth, religious fatta and occapation of the parents, with an enery setting forth in what manner the child has been disposed of and where the person receiving the child resided. The full further provinces that such person should kindly treat the child and in no way endeavor to interfere with its religious belies. Commenciable and energetic exertions are now being made to have the oill passed at the next Legislature. proved. After some discussion upon the important
